Art Unit 1711

All remaining rejections and/or objections follow.

Claims 1-10 are rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants' limitation that the molecular weight of the monovalent organic group R is a number average molecular weight is not disclosed by the specification as filed and is therefore new matter. The specification as filed does not disclose how to produce materials having m and n greater than 1 and therefore production of such materials is not enabled.

Applicants' arguments filed 10-09-02 have been fully considered but they are not deemed to be persuasive.

With regard to applicants' allegation that support exists for applicants' amendment indicating that molecular weights are specifically number average molecular weights, page 23 refers to the molecular weight of the alphaolefin oligomers. The molecular weights recited by the instant claims do not pertain to such oligomers.

With regard to the rejection under 35 U.S.C. § 112 first paragraph, the Examiner has reviewed pages 13-15 of the instant specification as well as the rest of the specification and can see nothing which discloses how to make applicants' copolymer A

Art Unit 1711

in which the sum of the m and n is other than 1 and in which R has a molecular weight of 40-1000. With regard to the patents specifically referred to by applicants, U.S. Patent 2,768,994 does not even disclose polyoxymethylenes having units other than oxymethylene. With regard to U.S. Patent 3,027,352, the only comonomeric unit in the polyoxymethylenes disclosed by patentees are those which contain pendant lower alkyl units which are not embraced by applicants' disclosure of pendant R monovalent organic groups having molecular weights as high as 1000.

Applicants' amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE
